Message

U.P. Rajarshi Tandon Open University, Prayagraj has been established on 2nd November, 1998 by the Govt. of U.P. with headquarter at Prayagraj. The university strives to fulfill its objectives by a diversity of means of open and distance learning (ODL) system and functions in co-operation with the existing universities and institutions of higher learning based in Uttar Pradesh. This university makes full use of the latest scientific knowledge and ICT to offer a high quality of education, which matches the needs of the day. One of the main objectives of the university is to provide instruction for various branches of knowledge, vocation and profession, along with provision for research. Research and innovations are the bases of any development. Keeping in view, the importance of research in higher education and the constant demand from the stakeholders of the state, the university has taken decision to launch and continue research programmes leading to Ph.D. degree in regular mode in 15 subjects as per UGC norms and regulations-2016 and amendment done from time to time i.e. in 2022 and 2024. In this connection as per U.G.C. permission and direction, necessary Ordinances and Guidelines have been modified and framed up. The Ordinance for research programmes has been considered by the State Govt. of U.P., and accordingly the guidelines have been approved by the Academic Council of the University on the recommendation of the duly constituted committee for this purpose. The university has 12 regional centers and more than 1499 study centers in various districts of Uttar Pradesh and offers various certificate, diploma and degree programmes along with Ph.D. to expand the access of higher education.

This information brochure contains information on eligibility criteria, programme duration, fee structure, admission system and Ph. D. guidelines for the session 2025-26.

I am sure, the research students will able to fulfill the knowledge gap in their respective subject with their research findings and enrich themselves academically and will get benefit in building their career as there will be ample job opportunities after completing the offered Ph.D. Programmes.

About the University

The Uttar Pradesh Rajaarshi Tandon Open University (UPRTOU) Prayagraj was established in November, 1998 by the Government of Uttar Pradesh to offer a wide range of educational Programmes related to general education, training, research and extension work through open and distance learning for the development of the State; to promote dissemination of learning and knowledge through distance education system to a large segment of the population; and to promote and advance the culture of the people of India and its human resources based on the rich heritage of the State. The concept of open learning and distance mode education system concentrates on providing open access to education and training which has no constraints of time and place. Open and distance learning (ODL)is one of the most rapidly growing fields of education now a days and has substantial impact on all education delivery systems.

The UPRTOU runs its academic activities through a diversity of means of distance and continuing education, and functions in co-operation with the existing universities, colleges and institutions of higher learning, and makes full use of the infrastructure of these organizations to impart education. It uses the latest scientific knowledge and information and communication technology for providing quality education to its students and strengthening the student-support services.

The University started functioning from the session 1999-2000 with 3344 distance learners and during 2024-25 session more than 180,000 distance learners are enrolled in various programmes with the help of 1499 Study centres and 12 region centres located in the entire state of Uttar Pradesh. The UPRTOU programmes represent diversified areas of education, training and extension, and the range spans from single subject proficiency to teacher education, humanities, scocial sciences, management, mathematics, statistics, computer, journalism, information technology, e- business, science, home science, yoga and skill oriented programmes. The University has established regional centres for making its activities more effective and convenient to the learners. The University took a judicious decision to follow the principles of collaboration and networking, and therefore adopted some of the programmes from MOOCs and OERs to ensure rich quality of self-learning materials and avoid duplication of efforts.

Based on the experiences gained in the field of ODL system and with the help of university faculty, consultants and part-time resource expertise the university has developed SLM's for certificate programmes, diploma programmes, under-graduate programmes, and post-graduate programmes. Along with traditional degree and diploma courses, efforts have been made to learners in different programmes are much more than satisfactory. The organization of varied types of extension activities have been a useful feature of this university. On the whole this university has showed an all-round growth and development in extending the facilities of quality distance education in the state of Uttar Pradesh. In fact the **Uttar Pradesh Rajarshi Tandon Open University** has achieved tremendous growth during the very short period of its existence the cumulative enrolment in the university is more than 1000000. The university library is equipped with more than 25000 titles, e- journals and several important offline journals are being subscribed regularly. The success rate of distance learners in UPRTOU ranges from about 40 to 90% and overall success rate has been about 65% during the last few years.

Certain salient features of the University are as following-

(i) The entire educational system is student-centric;

(ii) Self-instructional course material is provided to the students and also uploaded in the University website www.uprtou.ac.in and in OER.

(iii) There is extensive application of ICT in the University such as; Online admission, Online payment, online admit card, online mark sheets, online assignments, online self-instructional course material, mobile messaging, mobile counseling, on-line counseling, video conferencing etc,

(iv) There is generally no age bar in admission.

(v) Many options are available to students regarding completion of the course.

(vi) Student has choice facility to select his/her course of study.

(vii) Any employee serving anywhere can also study through ODL mode of this University.

(viii) The student gets opportunity to take up two Degree or Diploma or Certificate course simultaneously as per U.G.C. Regulactions and Directons from time to time.

(ix) Organizing seminars, workshops, Training Programmers, Lectures on current and important topics is regular feature of the University.

Counselling is an important activity in distance education and is entirely different from the usual classroom teaching. Counsellors answer to the learners' questions in counselling sessions. Counseling sessions are conducted by efficient and experienced counsellors in accordance with the standards set by the University. Subject-experts from renowned institutions are also invited for the counseling and guidance of students.The university follows two academic sessions; July to June and January to December, each of which is divided, into two semesters and the admissions are made in both the semesters. To shorten the period of admission process considerably, the online admission system is being used in the admissions. Except few programmers like B.Ed., B.Ed. (SE), yoga programmes and Ph.D. University have adopted open admission system. For admission to B.Ed., B.Ed. (Special Education), and yoga programmes, admission tests are conducted. University has been fully digitalized.

The examination system of this University is different from those of the conventional Universities. All examinations of this University are based on the semester system. Here a student is declared pass or fail in different papers/courses instead of in the terminal examination as a whole. As such a student gets the credit of all those papers/courses, which he/she completes successfully, and as and when he/she completes all the required papers/courses for the program, the pass marks sheet/ certificate indicating the division, is issued to the student. Every student is given home assignments for each course/program. If a student does not submit completed home assignments within the stipulated period, he/she is not allowed to appear in the Terminal examination of that course/program.

UPRTOU has brought the higher education within the reach of a large segment of population, and caters to the needs of thousands of aspirants of higher education. The motto of the UPRTOU is **"reaching the unreached",** and it aspires to achieve it as early as possible. Thus, the programmes of the University fulfill the educational and training needs of a wide segment of population from the professionally qualified to the general

public, from corporate executives to unemployed youths, and from businessmen to homemakers.
